"Not using an inoculant is similar to working a field, fertilizing it and then walking away and not putting any seed in - you just harvest whatever comes up. Inoculant controls what is doing the fermentation." Thomas Kilcer
Cornell Cooperative Extension

SiloSolve® AS Bacterial inoculant for aerobic stability and enhanced fermentation

SiloSolve® AS is a science-based, research-proven inoculant for Corn:

- Reduces heating and improves aerobic stability
- Reduces growth of yeast and mold
- Improves nutrient preservation and silage quality

"Oxygen is the Enemy"

Make the most of your silage with Silostop's Oxygen Barrier Film.
