

November 2015

Do NOT just look at **STARCH
when selecting corn varieties**

Ask about Milk/ Ton vs. Milk/ Acre

Elite Yukon R
2050 CHU

- Newer 2050 CHU RR Silage Hybrid
- Excellent spring vigor and standability
- For a very early, yield won't hurt you here

**(see trial data on the back page)*

Elite Fusion RR
2200 CHU

- The New standard for early corn
- Very adaptable to soil types
- Lower lignin content promotes digestibility
- Milks very well - All of the feed guys want this variety

**Exclusive to
Dairy Crop
Solutions**

Elite Venza RR
2500 CHU

- 1st in 2013 & 2014 in Abbotsford & Agassiz - PCFA Trials
- High yield and grain content
- Tall leafy, energy rich
- Superior milk/ acre
- Handles drier conditions better than a lot of varieties

LFG-8755R
2650 CHU

****Floury Starch****

- The "Beast" - Tall Leafy, Highly available starch
- Floury gene with white cobs which also increase digestibility
- Proven in the Fraser Valley for 3 years

**(see trial data on the back page)*

for Current Crop Advice

Gerry DeGroot - 604.819.4139

Morgan Umpleby - 604-798-4847

Ask Yourself or Dairy Crop:

- Can I plant my cover crop too early?
- Will my cover crop resist rust if it's a milder winter?
- When to harvest drought-stressed corn?
- Are my cover crop costs running away from me?

Variety

VS.

Fertility

* No amount of fertilizer will correct

* Notice edge where no manure or
fertilizer was applied

Welcome To The Team!

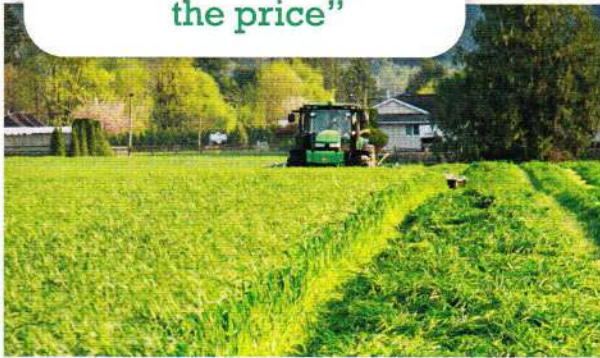

Dairy Crop would like to welcome Morgan Umpleby

Morgan joined the Dairy Crop Solutions team after graduating from the University of the Fraser Valley in April 2015 with an Agriculture Technology Diploma. Morgan has previous job experience in various aspects of farming including retail feed sales, animal health, and on her family grain farm in Saskatchewan. She currently resides in Langley with her horses and dog. With a passion for agriculture, Morgan is excited to be a part of our team and looks forward to working with everyone.

"I did not notice any difference when I split my field with a higher priced blend"

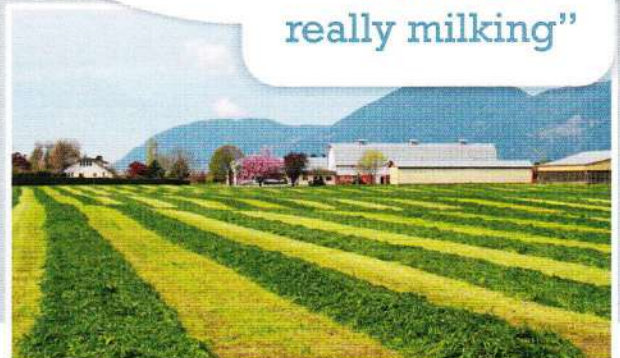

"I cannot tell the difference except for the price"

"Crop is doing excellent"

"Cows are really milking"

Traditional Blend - Treated

83% Milk-Maker Brand Winter Wheat
17% Ice Brand Annual Ryegrass

Spring Green Up* - Treated

75% Milk-Maker Brand Winter Wheat
25% Ice Brand Annual Ryegrass

**Not recommended if you have an old mower*
